Superbowl Pool Rules

How it works: Raffle tickets are numbered 1-100; numbers are randomly assigned a space on a 10x10 grid. The top and left side of the grid are labelled 0-9 by random draw, as are the two teams assigned to these sides.

To Win: At the end of each quarter, the right-most digit of the score corresponding to the team wins \$100. Then as a bonus, the final score (either the 4th quarter or at the end of OT) wins another \$100. 5 chances to win.

Where to see your square(s): Squares will be assigned on or before Feb 6, 2021. You may view the square assignments (by name/#) before the game, and winning squares after, on the Soroptimist club website www.si-noyosunrise.org. Winners will be notified and a check sent in the mail.
